Internship

What do you mean by internship?

As a winner of IYT scholarship, you are required to complete a full-time, three-month internship in an Italian company that is part of the Program. The internship program must be completed as follows:

- 1) For Laurea Magistrale (LM): it must be carried out by June 1st, 2026. You may have to skip certain classes and do the exam at a later date in accordance with your university.
- 2) For Master Course: it must begin before the end of the academic year, and will entail missing certain classes that will overlap with the internship.

The internship is mandatory.

Scholarship holders who do not complete the mandatory internship may lose the last instalment of their second-year scholarship.

How will an internship in Italy benefit me?

You will have the privilege to gain professional experience in the sector of your interest confronting yourself with leading Italian companies of each sector. You will have the opportunity to expand your professional and personal horizons, along with building a solid network and possibly creating future partnerships.

How do I find the internship?

To find an internship:

- 1) Contact the career service of your university and follow their instructions;
- 2) In case the Invest Your Talent Committee has an internship offer to present, the Committee will contact the student directly and present that offer. There is, however, the possibility that the offer is in another city than the one where the student is studying.
- 3) You may also find the internship autonomously or through your university tutor but you will still need to follow the career service instructions and inform the Invest Your Talent Committee.

When and where should I do my internship?

The internship takes place in Italy in an Italian company, and must last three consecutive months. Therefore, in agreement with your University tutor, you shall plan a suitable period for the internship.

If you started an internship without asking the university's permission, you must contact the Career Service at once to make the "Convenzione di Stage" and the "Progetto formativo". If you do not follow these instructions, the internship will not be valid.

What is the “Convenzione di Stage”?

In order for the internship to be legal and covered by insurance, a document called “Convenzione di Stage” is required. It is a contract between yourself, the University, and the Company you will be interning at. This document contains the university commitment related to the student’s insurance during the working period.

What is the “Progetto formativo”?

The *Progetto formativo* is an important document for your Internship: it states what the main tasks for the students and what the objective of the traineeship are; it also provides a brief description of the internship and the insurance coverage. It must be signed by the University tutor in agreement with the company you are doing the internship at.

Where can I find documents for the “Convenzione di Stage” and the “Progetto formativo”?

All the documents are already available in templates. You just have to ask your University career service to activate the internship procedure. You will be provided all the documents needed along with the information about the procedure to follow. You just will have to bring or send the document to the company so that they can sign it and subscribe it.

Will I be paid for the internship?

There is no economic compensation other than the scholarship.

Are travel expenses to and from my internship placement covered?

For the entire period of your stay in Italy, you are required to take care of your travel expenses at your own cost.

Does the company provide accommodation?

For the entire period of your staying in Italy, you are required to take care of your accommodation at your own cost. Companies will not provide any assistance with the accommodation process.

Is there any possibility to extend the internship after the three months period?

Yes, there is. You can extend the internship period for additional three months only after informing the IYT Committee and your University career service.

After contacting the career service and following their instructions, do I need to do anything else before starting the internship?

Yes, you must send the IYT Committee an email to inform it about the details of your internship. You must also inform the company where you will begin your internship to contact the IYT Committee.

My internship is already registered in my study plan at my University. Should I do something with IYT?

Yes, you should. You need to contact the IYT Committee before starting the internship.

How am I going to finish a three-month internship before the end of scholarship program?

While studying in Italy you must attend an internship. Therefore, in accordance with your tutor at the University you shall plan a suitable period for you to do the internship.

Please note that you cannot undertake the internship once you have completed your studies: failing to fulfill this commitment can affect the regular payment of the scholarship.
